TRIO ENJOY FUN

A practical and dynamic 3 in 1 system with a wave of enjoyment!

- Trio Enjoy Fun is practical and agile, it has technical hard-wearing linings in bright and attractive colours; ideal for parents who enjoy a dynamic and sporting life.
- The pram cover is reversible so mums can choose the pattern they want day by day, just like their clothes.

- During the first few months the carrycot or the Synthesis XT Plus car seat can be attached to the frame. Then, as the infant gets older, the car seat can be attached to the frame, turning it into a comfy and full-accessory stroller.
- The Trio Car kit can be fitted to the carrycot which makes it suitable for use in cars.
